SUBJECT INDEX

Abstracts of presentations at Annual Meeting were published as a supplement to the September issue of the *Journal* and are indexed within that supplement.

A

Acidemia

Apparent decreased energy requirements in children with organic acidemias: preliminary observations, 1074

ADA

83rd Annual Food & Nutrition Conference & Exhibition, 1218

ADA leads way in putting children back on the road to good health, 1012

ADA offers praise on proposes Dietary Guidelines 2000, suggests improvements, 518

ADA plans to streamline medical nutrition therapy codes proposal, 634

ADA releases 6th edition of Manual of Clinical Dietetics, 1304

Agriculture Research Service seeks nominations for 2000 Wilbur Olin Atwater Memorial Lectureship sponsored by ADA, 162

Awards for 2000 Food & Nutrition Conference & Exhibition Program Participants, 122

Become a Fellow of the ADA, 1403, 1418

Call for Abstracts, 119, 167

Commencing our new strategic plan: Presenting ADA's 1999-2000 Board of Directors, 720, 768

Congratulations to the new Fellows, 1406

Dietetic Practice Groups, 162, 296

Members celebrate 50 yeas with ADA, 1214

Metamorphosis: ADA's Annual Meeting & Exhibition becomes ADA's Food & Nutrition Conference & Exhibition, 876

obituary: Janice N. Neville, 718

Officers and Committee Members (2000-2001), 1086, 1303

Positions—see ADA Positions

Report on The American Dietetic Association's member needs assessment/satisfaction study, 112

Resources for ethical dilemmas in dietetics, 515

Update on the Minority Recruitment and Retention Research Project, 888

ADA Affiliate Associations

Arizona, 513

Idaho, 162

Indiana, 296

Iowa, 1010

Northeast, 296

Ohio, 162

Texas, 19

ADA awards and honors

ADA Foundation Scholarship recipients for 2000-2001, 1408

Anne-Marie Hedberg wins Huddleson Award, 1215

Emerging Dietetics Leader Awards (2000), 1082

Kenneth W. Wear, MS, RD, LD receives 2000 Copher Memorial Award, 1412

Members honored with Excellence in Practice awards, 1415

Members honored as Medallion award winners in Denver in October, 1413

Outstanding Dietitian Awards (2000), 1081

Outstanding Dietetics Educators (2000), 1081

Outstanding Dietetics Students (2000), 1079, 1303

Recognition of Service Awards (2000), 1084

Recognition of Service Awards (2000) Revised, 1416

Recognized Dietetic Technicians (2000), 1079

Recognized Young Dietitians (2000), 1077

Van Sexton Hubbard, Graham V. Kerr, and Robert W. Langholz awarded honorary memberships, 1415

ADA Calendar, 19, 162, 296, 416, 512, 634, 764, 875, 1010, 1139, 1304, 1458

ADA Foundation

ADA Foundation announces second fellowship, 1458

ADAF Directory of Resources for International5 Food, Nutrition, and Dietetics Professionals (book), 267

ADAF's action for the 21st century, 1292

Anne-Marie Hedberg wins Huddleson Award, 1215

$1,000 award for eliminating food waste in cities to benefit the hungry, 1458

$1,000 award for resourceful consumer education program in a developing country, 20, 298

Scholarship recipients for 2000-2001, 1408

Scholarships available for the 2001-2002 academic year, 1083

ADA Journal

Accolades from Journal readers, 768

CADE Public Notice, 164, 514, 1011

Call for Abstracts, 119, 162, 167, 416

Call for Papers, 1459

Errata, 21, 299, 418, 516, 629, 768, 1008, 1303

Guidelines for Authors, 24

Letters to the Editors, 21, 299, 418, 516, 629, 768, 883, 1004, 1137, 1300

News from CDC, 20, 163, 416, 513, 634, 764

Tell us what you think of the Journal's new features after 6 months, 287

ADA positions

Food irradiation, 246

Impact of fluoride on health, 1208

Local support for nutrition integrity in schools, 108, 254

Nutrition, aging, and the continuum of care, 580

Nutrition & Athletic Performance, 1543

Nutrition intervention in the care of persons with human immunodeficiency virus infection, 708

Position paper update for 2000, 254

Taking a stand on emerging issues, 410

ADA President's Page

Corporate alliances: a strategy for success, 1124

DPGs keep members on the cutting edge of food and nutrition trends, 12

Genetics: brave new world, 996

Giant steps forward for the profession, 507

Jane V. White, PhD, RD, ADA President 2000-2001, 624

Metamorphosis: ADA's Annual Meeting & Exhibition becomes ADA's Food & Nutrition Conference & Exhibition, 876

National Nutrition Summit: collaboration, consensus, action, 754

Power of grassroots commitment, 156

RDs and DTRs — Partners in Practice, 1448

Taking the lead on a national nutrition policy, 288

Taking a stand on emerging issues, 410

Adipose tissue—see Anthropometry; Body composition; Body fat; Obesity; Weight change; Weight management

Adolescents—see also Young adults

Adolescent health and nutrition: a survey of perceived knowledge and skill competencies and training interests among dietitians working with youth, 362

Assisting adolescents in finding nutrients in food, not pills, 910

Availability of a la carte food items in junior and senior high schools: a needs assessment, 701

Breast-feeding practices among adolescent and adult mothers in the Missouri WIC population, 1071

Calcium intakes of children and adolescents (abstract), 603

Change in body mass index does not predict change in body composition in adolescent girls with anorexia nervosa, 457

Cholesterol screening in children and adolescents (abstract), 1264

Development of a modified picture-sort food frequency questionnaire administered to low-income, overweight, African-American adolescent girls, 1050

Growth, dietary intake, and trace element status in pubescent athletes and nonathletes (abstract), 1425

Impact of camp experience on phenylalanine levels, knowledge, attitudes, and health beliefs relevant to nutrition management of phenylketonuria in adolescent girls, 797

Improved lactose digestion and intolerance among African-American adolescent girls fed a dairy-rich diet, 524, 1303

Influence of food choices on high school students' perception of school foodservice, 952

Nutrition & Wellness (book review), 605

Nutrition and adolescence (abstract), 1262

Nutrition intervention in the care of persons with human immunodeficiency virus infection, ADA position, 708

Overconcern about thinness in 10- to 14-year-old schoolgirls in Taiwan, 234

Pregnant adolescent and adult women have similarly low intakes of selected nutrients, 1334

Promoting healthy body acceptance among pre-adolescent girls, 1466-1461

Relationship between vitamin and mineral supplement use, dietary intake, and dietary adequacy among adolescents, 905

This is Your Life (videotape review), 735

Type 2 diabetes in children and adolescents (abstract), 1095, 1264

Validity and reliability of a modified qualitative dietary fat index in low-income, overweight, African American adolescent girls, 1525

African Americans

Birth weight and regional adiposity in white, African-American, and Hispanic children (abstract), 1262

Body mass index, depression, and suicide (abstract), 968

Comparison of the effectiveness of a telephone 24-hour dietary recall method vs an in-person method among urban African-American women, 1172

Development of a modified picture-sort food frequency questionnaire administered to low-income, overweight, African-American adolescent girls, 1050

Differences in energy expenditure and aerobic fitness in black vs white women (abstract), 845

Energy expenditure before and after weight loss in African-American and white women (abstract), 1259

Energy expenditures in blacks vs whites (abstract), 849

Food diary response rates in a sample of African American women: respondent characteristics and nutrient intake, 1532

Improved lactose digestion and intolerance among African-American adolescent girls fed a dairy-rich diet, 524, 1303

Plasma homocysteine and folate levels in black vs white women (abstract), 118

Validity and reliability of a modified qualitative dietary fat index in low-income, overweight, African American adolescent girls, 1525

Age factors—see also Adolescents; Aging; Children; Infants; Older Adults; Young adults

Age, visceral adipose tissue, and metabolic risk profile in women (abstract), 263

Managing age diversity in the workforce (abstract), 264

Obesity prevalence by age group and 5-year changes in adults residing in rural Wisconsin, 784
Aging
ADA DPGs keep members on the cutting edge of food and nutrition trends, 12
ADA position papers on, 254
Descriptive anthropometric reference data for older Americans: NHANES III data, 59
Distribution of protein turnover changes with age (abstract), 1424
Effect of age-related height loss on BMI (abstract), 597
Effects of aging, season, and supplement use on vitamin D status (abstract), 130
Geriatric Nutrition: The Health Professional's Handbook (book review), 734
Nutrition, aging, and the continuum of care, ADA position, 580
AIDS/HIV
Breast-feeding vs formula-feeding and transmission of HIV-1 infection (abstract), 1097
Development of an instrument to assess nutritional risk factors for children infected with human immunodeficiency virus, 323
Letter to the Editor, 418
Nutrition intervention in the care of persons with human immunodeficiency virus infection, ADA position, 708
Take "Food and Fitness: Health for a Lifetime" to heart, 286
Alcohol
Activity of flavonoids is probably due to their metabolites (abstract), 383
Alcohol intake and bone mineral density in older women (abstract), 1260
Alcohol intake and cognitive performance (abstract), 124
Alcohol intake and incidence of type 2 diabetes in men (abstract), 848
Alcohol intake and mortality (abstract), 1259
Alcohol intake and risk of stroke (abstract), 602
Alcohol intake and risk of type 2 diabetes (abstract), 1261
Effects of dietary fat and alcohol intakes on plasma lipids and lipoproteins (abstract), 384
Nutrition support, nutritional status, and immunity in patients with alcoholic cirrhosis (abstract), 478
Allergies
Cow's milk allergy in breast-fed infants via maternal intake of cow's milk (abstract), 482
Dieticians face the challenge of food allergies, 13
Duration of allergy to cow's milk protein in infants (abstract), 851
The latex and food allergy connection, 1381
Practical understanding of self-administered epinephrine among food-allergic children and pediatricians (abstract), 1100
Alternative medicine—see Complementary medicine; Herbals
Aluminum
Contamination of enteral and parenteral nutrients with aluminum (abstract), 602
American Indians—see Native Americans
American Medical Association (AMA)
Review of the American Medical Association's guidelines for medical and health information sites on the Internet, 1003
Amino acids—see also Protein
Apparent decreased energy requirements in children with organic acidemias: preliminary observations, 1074
Methods for Investigation of Amino Acids and Protein Metabolism (book review), 853
Plasma insulin response after ingestion of different amino acid or protein mixtures with carbohydrate (abstract), 1420
The Role of Protein and Amino Acids in Sustaining and Enhancing Performance (book review), 855
Amyotrophic lateral sclerosis (AML)
Diet and amyotrophic lateral sclerosis (abstract), 846
Anemia—see also Iron
Prevalence of anemia in a WIC population: a comparison by homeless experience, 469, 629
Severe iron deficiency anemia in young children (abstract), 484
Anorexia nervosa—see Eating disorders
Anthropometry—see also Body composition
Change in body mass index does not predict change in body composition in adolescent girls with anorexia nervosa, 457
Descriptive anthropometric reference data for older Americans: NHANES III data, 59
Exercise mitigates association of abdominal obesity with high-density lipoprotein cholesterol in premenopausal women: results from NHANESIII, 1347
Flexible tape is an appropriate tool for knee height measurement and stature estimation of adults with developmental disabilities, 105
More research needed on apple-shaped women and exercise, 1353
New recommendation for maternal weight gain in Chinese women, 791
Sagittal abdominal diameter vs other anthropometric measurements and cardiovascular risk (abstract), 1263
Social desirability and accuracy of self-reported weight and height (abstract), 1422
Total body potassium vs anthropometry for evaluation of nutritional status in children with cystic fibrosis (abstract), 972
Tricep skinfold calipers for assessing nutritional risk, 329
Antioxidants—see also Carotenoids; Vitamin A; Vitamin C; Vitamin E
The antioxidant conundrum: two recent studies point in different directions, 510
Antioxidant nutrient status and pulmonary function (abstract), 1421
Antioxidant Status, Diet, Nutrition, and Health (book review), 266
Antioxidant status of patients with Crohn's disease (abstract), 263
Antioxidant status of smokers vs nonsmokers and effects of supplementation (abstract), 846
Antioxidant supplements and pre-eclampsia (abstract), 385
Antioxidants in prevention and treatment of Parkinson's disease (abstract), 478
Benefits of Ginkgo biloba for mind and heart (abstract), 387
Blueberry and cranberry juices and plasma antioxidant capacity, 1422
Carotenoids and vitamin E and protection against ultraviolet light-induced erythema (abstract), 968
Coenzyme Q10 and heart disease (abstract), 387
Diabetes, antioxidant supplements, and susceptibility of low-density lipoprotein to oxidation (abstract), 478
Dietary antioxidants and smoking status (abstract), 968
Dietary reference intakes for antioxidant nutrients: vitamin C, vitamin E, selenium, and carotenoids, 637, 1108, 1109
Effects of unrefined diet on serum lipids, antioxidant defenses, and colon function (abstract), 970
Flavonoids in Health and Disease (book review), 975
Interaction of Vitamin C and cigarette smoke, 880
Plasma antioxidants and lipid peroxidation in maternal and cord blood (abstract), 599
Tea and plasma antioxidant activity (abstract), 848
Appetite—see also Satiety
Efficacy and safety of Sibutramine (abstract), 969
Frequency of eating and appetite in obese men (abstract), 600
Poor appetite among hemodialysis patients (abstract), 484
Sibutramine, energy expenditure, and appetite (abstract), 382
A Sociology of Food and Nutrition: The Social Appetite (book review), DDDD
Arthritis
Biochemical effects of foods enriched with n-3 fatty acids (abstract), 1419
Glucosamine and chondroitin for treatment of arthritis (abstract), 1097
Rheumatoid arthritis and dietary olive oil and cooked vegetables (abstract), 597
SAMe as a supplement: can it really help treat depression and arthritis?, 414
Ascorbic acid—see Vitamin C
Asthma
Body mass index and asthma (abstract), 598
Development of a standardized methodology for double-blind, placebo-controlled food challenge in patients with brittle asthma and perceived food intolerance, 1361
Atherosclerosis—see Cardiovascular disease
Athletes—see also Exercise
Comparison of body weight and body fat classifications of competitive school-age club swimmers, 237
Creatine supplementation and sprint performance (abstract), 974
Effects of creatine supplements on exercise performance (abstract), 1100
Effects of creatine supplements on response to resistance training (abstract), 130
Energy balance and body composition in gymnasts and runners (abstract), 1099
Glycemic index of "energy" snack bars in normal volunteers, 97
Growth, dietary intake, and trace element status in pubescent athletes and nonathletes (abstract), 1425
Intake of fat and nutrients in endurance runners (abstract), 970
Nutrition concerns related to the performance of a baseball team, 704
Oral sodium or bicarbonate loading and arm ergometry in wrestlers (abstract), 1099
Wrestling and disordered eating (abstract), 485
Awards and honors—See also ADA awards and honors
Adolphi, Celia, 416

B

Benchmarking
Expert panel identifies activities and performance measures for foodservice benchmarking, 692
Foodservice benchmarking: practices, attitudes, and beliefs of foodservice directors, 181
Beta-carotene—see Carotenoids; Vitamin A
Beyond the Headlines
The antioxidant conundrum: two recent

studies point in different directions, 510
Children with feeding disorders: an emerging issue, 1000
FDA approves health claim labeling for foods containing soy protein, 292
Folic acid and Down syndrome, 159, 516
High-protein, low-carbohydrate diets: do they work?, 760, 1300
Interaction of Vitamin C and cigarette smoke, 880
Presidential candidates of 2000: their positions on health care, and why MNT is an important issue, 630
Status report on nutrition in the news, 1298
Staying on track: the benefits of exercise combined with healthful eating, 15
What's new at the FDA: informing consumers about trans fat labeling, 1132
Binge eating—see Eating disorders
Biomarkers
Genetic taste markers and preferences for vegetables and fruit of female breast care patients, 191
Profiles of a healthful diet and its relationship to biomarkers in a population sample from Mediterranean southern France, 1164
Serum marker for caffeine intake and risk of spontaneous abortion (abstract), 602
Biotechnology
Biotechnology: mobilizing dietitians to be a resource, 1306
Food biotechnology in the new millennium: promises, realities, and challenges, 1311
Solving global nutrition challenges requires more than new biotechnologies, 1308
Birth defects
Folic acid and Down syndrome, 159, 516
Maternal multivitamin supplementation and risk of birth defects (abstract), 378
Maternal multivitamin use and cardiac defects in infants (abstract), 1420
Maternal zinc intake and neural tube defects (abstract), 124
Birth weight
Birth weight and regional adiposity in white, African-American, and Hispanic children (abstract), 1262
Growth of very-low-birth-weight infants (abstract), 131
Blood pressure—see also Hypertension
Blood pressure and bone-mineral loss in older women (abstract), 385
Coffee, caffeine, and blood pressure (abstract), 598
Creatine supplementation, fat-free mass, blood pressure, plasma creatinine level, and creatine kinase activity (abstract), 973
Effects of weight cycling on blood lipids and blood pressure (abstract), 727
Body composition—see also Anthropometry
Anabolic effects of protein and energy supplements in malnourished older adults (abstract), 1259
Birth weight and regional adiposity in white, African-American, and Hispanic children (abstract), 1262
Body composition in children with celiac disease before and after treatment with a gluten-free diet (abstract), 1420
Body composition and energy expenditure after weight loss induced by bariatric surgery (abstract), 1263
Body mass index and colon cancer (abstract), 124
Body mass index and mortality in older adults living in the community (abstract), 382
Change in body mass index does not predict change in body composition in adolescent girls with anorexia nervosa, 457
Comparison of body weight and body fat classifications of competitive school-age club swimmers, 237
Creatine supplementation, fat-free mass, blood pressure, plasma creatinine level, and creatine kinase activity (abstract), 973
Dual-energy x-ray absorptiometry (abstract), 484
Effect of longitudinal changes in body weight on fat-free mass (abstract), 596
Effects of body composition and adipose tissue distribution on resting metabolic rate and thermic effect of food (abstract), 974
Energy balance and body composition in gymnasts and runners (abstract), 1099
Green tea extract, energy expenditure, and fat oxidation (abstract), 597
Impact of acute illness on nutritional status of infants and young children with sickle cell disease, 330
Insulin-like growth factor-1 genotype and fat-free mass (abstract), 265
Lifetime health and economic benefits of weight loss among obese persons (abstract), 378
Omnivorous vs vegetarian diet and resistance training-induced changes in body composition (abstract), 596
Risk of mortality, body fat, fat-free mass, and body mass index (abstract), 849
Sagittal abdominal diameter vs other anthropometric measurements and cardiovascular risk (abstract), 1263
Shift work, body mass index, and waist-to-hip ratio, 265
Body fat
Age, visceral adipose tissue, and metabolic risk profile in women (abstract), 263
Anger, hostility, and visceral adipose tissue in postmenopausal women (abstract), 385
Birth weight and regional adiposity in white, African-American, and Hispanic children (abstract), 1262
Body fat distribution and endothelial dysfunction (abstract), 265
Comparison of body weight and body fat classifications of competitive school-age club swimmers, 237
Dietary diglycerides suppress accumulation of body fat (abstract), 1424
Effects of body composition and adipose tissue distribution on resting metabolic rate and thermic effect of food (abstract), 974
Exercise mitigates association of abdominal obesity with high-density lipoprotein cholesterol in premenopausal women, 1347
Insulin-like growth factor-1 genotype and fat-free mass (abstract), 265
Muscle fiber types, substrate oxidation, and body fat (abstract), 266
Risk of mortality, body fat, fat-free mass, and body mass index (abstract), 849
Body image
Body Wars: Making Peace with Women's Bodies, 855
Overconcern about thinness in 10- to 14-year-old schoolgirls in Taiwan, 234
Promoting healthy body acceptance among pre-adolescent girls, 1466
Social desirability and accuracy of self-reported weight and height (abstract), 1422
Body mass index
Body mass index and asthma (abstract), 598
Body mass index and colon cancer (abstract), 124
Body mass index, depression, and suicide (abstract), 968
Body mass index and mortality (abstract), 485
Body mass index and mortality in older adults living in the community (abstract), 382
Change in body mass index does not predict change in body composition in adolescent girls with anorexia nervosa, 457
Effect of age-related height loss on BMI (abstract), 597
Effect of smoking on the relationship between body mass index and mortality (abstract), 725
Obesity at age 50 years in men and women exposed to famine prenatally (abstract), 476
Risk of mortality, body fat, fat-free mass, and body mass index (abstract), 849
Shift work, body mass index, and waist-to-hip ratio, 265
Use of BMI to assess overweight in individual vs groups of children (abstract), 597
Body weight—see also Body composition; Body image; Obesity; Weight change
Body weight and mortality among adults who never smoked (abstract), 725
Body weight, weight change, and lung function decline (abstract), 265
Comparison of body weight and body fat classifications of competitive school-age club swimmers, 237
Effect of body weight and prior vitamin depletion on vitamin C status (abstract), 728
Effect of longitudinal changes in body weight on fat-free mass (abstract), 596
Effects of increased consumption of fluid milk on energy and nutrient intake, body weight, and cardiovascular risk factors in health older adults, 810
Overconcern about thinness in 10- to 14-year-old schoolgirls in Taiwan, 234
Preconception question: nutritional foundations of fertility in women and men, 289
Bone composition
Bone ABCs and Ds in the elderly: a guide for practitioners, 441
Fluoride in drinking water and hip fracture (abstract), 851
Fruit and vegetable intake and bone health (abstract), 724
Impact of fluoride on health, ADA position, 1208
Lactation delays bone mineral accretion (abstract), 1424
Natural fluoride in well water and hip fracture (abstract), 378
Bone marrow transplantation
Impact of a randomized, controlled trial of hospital discharge criteria on energy, protein, and fluid intake in patients who received marrow transplants, 1015
Bone metabolism
Parathyroid gland function and bone metabolism in long-term total parenteral nutrition (abstract), 846
Bone mineral density
Alcohol intake and bone mineral density in older women (abstract), 1260
Blood pressure and bone-mineral loss in older women (abstract), 385
Calcium intake and bone mineral content in young women (abstract), 847
Lactation delays bone mineral accretion (abstract), 1424
Letter to the Editor, 629
Unsymptomatic celiac disease and bone mineral density (abstract), 130
Book reviews—see also Practitioner's Bookshelf

Dietary fiber, weight gain, and cardiovascular risk (abstract), 481

Holiday weight gain (abstract), 1264

New recommendation for maternal weight gain in Chinese women, 791

Psychosocial and lifestyle factors associated with insufficient and excessive maternal weight gain during pregnancy, 353

Weight cycling, weight gain, and risk of hypertension (abstract), 124

Weight gain in adults in the 1990s (abstract), DDDD

Weight gain and exposure to cow's milk during infancy and type 1 diabetes during childhood (abstract), 726

Weight loss—see also Weight management

Body composition and energy expenditure after weight loss induced by bariatric surgery (abstract), 1263

Development and application of a framework for identifying and prioritizing environmental interventions to reduce obesity (abstract), 853

Efficacy and safety of Sibutramine (abstract), 969

Energy expenditure before and after weight loss in African-American and white women (abstract), 1259

Exercise intensity, excess post-exercise oxygen consumption, and weight loss (abstract), 482

Five-year-old girls' ideas about dieting are predicted by their mothers' dieting, 1157

High-protein, low-carbohydrate diets: do they work?, 760, 1300

(−)-Hydroxycitric acid, energy expenditure, and substrate oxidation, 127

Letter to the Editor, 883

Lifetime health and economic benefits of weight loss among obese persons (abstract), 378

Lipid oxidation in cancer with and without weight loss (abstract), 264

Maintenance of weight loss by American adults (abstract), 728

Maintenance of weight loss over 15 years (abstract), 849

Orlistat has gastrointestinal but not systemic effects (abstract), 969

Shift work, body mass index, and waist-to-hip ratio, 265

Sibutramine, energy expenditure, and appetite (abstract), 382

Surgical treatment for obesity, 1056

Treatment of obesity using orlistat (abstract), 1096

Weight change and health-related quality of life in women (abstract), 730

Weight loss: prevalence of attempts and strategies used (abstract), 480

Weight loss with balanced vs food combining diets (abstract), 1263

Weight loss in breast-feeding women and growth of their infants (abstract), 975

Weight loss due to energy restriction and cholesterol synthesis (abstract), 129

Weight loss and progression of atherosclerosis in the carotid artery (abstract), 265

Weight-loss practices, nutrition beliefs, and weight-loss program preferences of urban American Indian women, 442

Where can I find resources for weight-loss issues?, 94

Weight management—see also Weight change

Do health care professionals advise obese clients to lose weight? (abstract), 481

Maintenance of weight loss by American adults (abstract), 728

Maintenance of weight loss over 15 years (abstract), 849

Role of nondieting programs in weight management (abstract), 380

Weight change and health-related quality of life in women (abstract), 730

Weight concerns, weight control behaviors, and smoking initiation (abstract), 603

Weight loss: prevalence of attempts and strategies used (abstract), 480

Weight-control behaviors in adults and adolescents (abstract), DDDD

Weight-loss practices, nutrition beliefs, and weight-loss program preferences of urban American Indian women, 442

Wellness

NetWellness: utilizing a consumer health information Web site to access nutrition professionals, 757

Nutrition & Wellness (book review), 605

WIC—see Food assistance programs

Women

Accuracy of energy intake data estimated by a multiple-pass, 24-hour dietary recall technique, 303

Age, visceral adipose tissue, and metabolic risk profile in women (abstract), 263

Alcohol intake and bone mineral density in older women (abstract), 1260

Alcohol intake and cognitive performance (abstract), 124

Anger, hostility, and visceral adipose tissue in postmenopausal women (abstract), 385

Beta carotene supplements and incidence of cancer and cardiovascular disease in women (abstract), 730

Blood pressure and bone-mineral loss in older women (abstract), 385

Body Wars: Making Peace with Women's Bodies (book review), 855
Both food preferences and food frequency scores predict fat intakes of women with breast cancer, 1325
Calcium intake and bone mineral content in young women (abstract), 847
Carbohydrates, dietary fiber, and magnesium and risk of type 2 diabetes in older adult women (abstract), 1092
Comparison of the effectiveness of a telephone 24-hour dietary recall method vs an in-person method among urban African-American women, 1172
Designing a quality assurance system for dietary data in a multicenter clinical trial: Women's Intervention Nutrition Study, 1186
Development of a modified picture-sort food frequency questionnaire administered to low-income, overweight, African-American adolescent girls, 1050
Dietary protein and risk of ischemic heart disease in women (abstract), 117
Dietary quality and mortality in women (abstract), 1264
Dietary recommendations to combat obesity, insulin, and other concerns related to polycystic ovary syndrome, 955
Differences in energy expenditure and aerobic fitness in black vs white women (abstract), 845
Energy expenditure before and after weight loss in African-American and white women (abstract), 1259
Exercise mitigates association of abdominal obesity with high-density lipoprotein cholesterol in premenopausal women: results from NHANESIII, 1347
Impact of camp experience on phenylalanine levels, knowledge, attitudes, and health beliefs relevant to nutrition management of phenylketonuria in adolescent girls, 797
Lactation delays bone mineral accretion (abstract), 1424
Micronutrient supplementation does not attenuate seasonal decline of immune system indexes in well-nourished elderly women: a placebo-controlled study, 356
More research needed on apple-shaped women and exercise, 1353
Normal serum total cholesterol in morbidly obese women (abstract), DDDD
Nutrition supplements for premenstrual syndrome (abstract), 970
Obesity at age 50 years in men and women exposed to famine prenatally (abstract), 476
Older adult women find food preparation easier with specialized kitchen tools, 950
Plasma homocysteine and folate levels in black vs white women (abstract), 118
Polyunsaturated fatty acid status of older vs younger women (abstract), 126
Potential mechanisms of diet therapy for fibrocystic breast conditions show inadequate evidence of effectiveness, 1368
The preconception question: nutritional foundations of fertility in women and men, 289
Pregnant adolescent and adult women have similarly low intakes of selected nutrients, 1334
Presenting conventional and complementary approaches for relieving nausea in a breast cancer patient undergoing chemotherapy, 257
Role of nondieting programs in weight management (abstract), 380
Social desirability and accuracy of self-reported weight and height (abstract), 1422
Sources of dietary saturated fatty acids and risk of CHD in women (abstract), 596
Soy isoflavones and plasma lipids in premenopausal women (abstract), DDDD
Tell Me What to Eat As I Approach Menopause (book review), 389
Weekly vs daily iron supplements in nonpregnant women (abstract), 601
Weight change and health-related quality of life in women (abstract), 730
Weight cycling, waist-to-hip ratio, and hypertension in obese women (abstract), 1262
Women Afraid to Eat (book review), 1266
World Health Organization (WHO)
Evaluation of WHO and NHANES II standards for overweight using mortality rates, 825

Y

Young adults—see also Adolescents
Calcium intake and bone mineral content in young women (abstract), 847
A food display assignment and handling food models improves accuracy of college students' estimates of food portions, 1063
Fruit and vegetable consumption among Mexican-American college students, 1399
Polyunsaturated fatty acid status of older vs younger women (abstract), 126
Pregnant adolescent and adult women have similarly low intakes of selected nutrients, 1334

Z

Zinc
Letters to the Editor, 1137, 1138
Maternal zinc intake and neural tube defects (abstract), 124
Zinc: what role might supplements play?, 371, 516

FACT SHEET INDEX

Following is a cumulative index of all the current nutrition fact sheets developed by the National Center for Nutrition and Dietetics. Copyright date and date published in the *Journal* (if applicable) are indicated.

Agricultural Biotechnology—An Important Food Production Tool, ©1999, Nov 1999
Avocados Contribute to a Healthy Lifestyle, © 2000, March 2000
"B" Smart for Your Heart and Pregnancy with Folic Acid and Vitamins B6 and B12, ©2000, Apr 2000
Breakfast: A Healthy Start for You and Your Child, ©1996, Aug 1996
Breast-feeding Basics, ©1998, Oct 1998
Calling All Parents: Wake Up Your Kids to Breakfast, ©1997, Oct 1997
Catch the Calcium Craze, ©1997, Sept 1997
Chocolate: Facts and Fiction, © 2000, Feb 2000
Choosing Legumes: A Healthful and Versatile Food, ©1996, Dec 1996
A Dash of Prevention: An Easy, Great-Tasting Eating Plan That May Help Reduce Your Risk of High Blood Pressure, ©1999, August 1999
Do You Need a Multivitamin/Mineral Supplement?, ©1998, March 1998
A Dozen Directions for a Healthful Year, ©1997, March 1997
Facts About Acesulfame Potassium, ©1997, Aug 1997
Facts About Olestra, ©1998, Aug 1998
Fad Diets: What You May Be Missing, © 2000, Feb 2000
Fat:One of Life's Essentials, ©1999, June 1999
Fats and Oils in the Diet: The Great Debate, ©1998, May 1998
Feeding Toddlers, ©1999, Oct 1999
Feeding Your Baby the Vegetarian Way, ©1997, Jan 1998
Fiber Facts: Soluble Fiber & Heart Disease, ©1999, Feb 1999
Find More in Your Pasta Bowl, ©1999, Feb 1999
Fish Frenzy, ©1999, Nov 1999
Flavor Enhancement…For Taste and Health in the Later Years, ©2000, Nov 2000
Food Choices for Heart Health: Include Plenty of Fiber, ©1996, Jan 1996
Fruits and Vegetables: Wash them up!, ©2000, Apr 2000
Good News for Nut Lovers, ©1997, March 1997
Healthful Snacking with Nuts: Nutrition in a Nutshell, ©1997, Feb 1997
Healthy Snacking with Fresh Fruits, ©1997, June 1997
Healthy Weight, Healthy You, ©1996
Improving Food Safety with Electronic Pasteur-ization, ©2000, Oct 2000
Lactose Intolerance, ©1996, May 1996
Lean 'n Easy Way to Enjoy Meat, The, ©1996, March 1996
Make Fitness Fun for Kids!, ©1996, Oct 1996
Make Nutrition Come Alive—It's All About You, ©1998, Feb 1998
Making the Most of Family Mealtime, ©2000, Sept 2000
Meat-free Goes Mainstream, ©2000, Jan 2000
Meeting the Challenge of Weight Management with Reduced Calorie Fats, ©1998, Nov 1998
Migraine Headaches and Food Triggers, ©1995, Oct 1995
Milk Gets a Makeover: New Labels Help Make Shopping a Snap, ©1997, Aug 1997
Nutrition Care of Your Loved One with Alzheimer's Disease, ©1996, Nov 1996
Nutrition Strategies for People Living with HIV/AIDS, ©1996, July 1996
Nutty and Nutritious!, ©1997, Nov 1997
Pasta Power! Debunking Myths About Pasta, ©1997, Oct 1997
Plant Stanol Esters: Another Tool for Lowering LDL Cholesterol, ©2000, Nov 2000
The Proof is in the Tea Leaves, ©1999, Jan 1999
Recipe for Wellness: Folate-rich Fruits and Vegetables, ©1998, June 1998
Salt and Hypertension Facts and Flavorful Solutions, ©1999, March 1999
Seafood: Take it to Heart, ©1999, Sept 1999
Seniors: Eat Well for Good Health, ©1996, Oct 1996
Smart Solutions for People with Diabetes, ©2000, Nov 2000
Speak Up for 5 A Day!, ©2000, July 2000
Straight Answers About Vitamin and Mineral Supplements, ©1997, April 1997
Taste Tips for Using Dried Herbs & Spices, ©1998, March 1998
Tipping the Scales in Your Favor: The Facts About Excess Weight, ©1997, Jan 1997
Unwrap the Gift of Home Food Safety This Holiday Season, ©1999, Nov 1999
Utilización de la Pirámide y el Rótulo Alimenticio para el establecimiento de patrones alimenticios saludables en los niños, ©1999, March 1999
Wanted: More Fruits and Vegetables, © 2000, March 2000
Weight Management: Registered Dietitians Answer Frequently Asked Questions, ©1997, April 1997
Weight Management: Strategies for Success, ©1997, Aug 1997
Whole Grains for Healthful Eating, ©2000, Sept 2000

AUTHOR INDEX

The following abbreviations indicate the *Journal* department in which the indexed material appeared: bd, The Business of Dietetics; bh, Beyond the Headlines; br, Book Review; c, Commentary; eo, Editor's Outlook; fyi, For Your Information; i, Of Interest to You; le, Letters to the Editors; pc, Point-Counterpoint; pe, People and Events; pi, Of Professional Interest; pp, Perspectives in Practice; prpt, Practice Points; qm, Question of the Month; rep, ADA Reports; res, Research; rev, Review; rpb, Research and Professional Briefs; sc, Solution Center; sr, Software Review; vr, Videotape Review. Page numbers preceded by the letter "S" refer to the October supplement to the *Journal*.
